

## PRODUCT USAGE TIPS

### **Air Freshener :**

Spray in the room / lobby (curtains, sofa, linen etc.) for a lasting and refreshing fragrance. The duration and effectiveness of fragrance depends broadly on external factors i.e. area, ventilation, environment, etc. E.g. Aqua Gold stays from approx. 8 to 24 hours depending on above mentioned factors.

### **Bathroom Freshener :**

Spray 2 to 3 times especially in areas that remain wet i.e. washbasin, toilet seat, around drain traps, etc. This ensures enduring fragrance.

### **Floor Fragrance :**

Add 15 drops of the floor fragrance in about 15 liters of water and wipe the floor. Our floor fragrances are a blend of essential oils that act as natural disinfectants (help to drive away flies, mosquitoes and other insects) & aromatic oils that emanate freshness for a long period.

### **Carpet Freshener :**

Dilute the freshener with water in the ratio of 1:7. Spray this solution on the carpet to negate foul smell and infuse freshness.

### **Laundry Solutions :**

Mix the solution with water in the ratio of 1:7. Spray this mixture on the fabric & iron for a long lasting fragrance.
